- Mazen osama   1190164

The runner challenges players to navigate through a dynamic tunnel filled with fixed

obstacles. As the player sprints forward, the goal is to skillfully avoid collisions with static objects. The game introduces a perilous edge, falling off leads to immediate defeat. With no room for error, players must rely on swift reflexes and precise movements to conquer the ever-increasing difficulty. "Edge Escape" provides a thrilling experience where each run is a test of endurance.

Lose: if the player hits an optical or falls from the edge

Win: if he reaches the end
